## The ANU College of Business and Economics (CBE) is committed to a culture of academic excellence.

By engaging with our world-class academic staff, who are some of the world's best researchers and leaders in their fields, and through the many opportunities and connections available to you during your time at CBE, you will be equipped to realise your potential.

Our alumni display a depth of character and high calibre that we have come to associate with those who study at and graduate from CBE. They make significant contributions to their professions and societies across the globe.

**We invite you to join our community.**

# Get ahead with a postgraduate qualification

## Workforce ready

CBE alumni are equipped for the opportunities and challenges of the modern workforce, making them highly sought after by employers. Working in a wide range of industries, our alumni possess a global outlook and practical skills that are strengthened through the College's diverse range of professional development experiences.

## A superior, research-led education

Through your study with CBE, you will have the opportunity to learn from some of the finest academic minds in the world. You will explore intricate ideas, gain skills to critically analyse and solve complex problems, and discover innovative leadership styles and new models of management. You will acquire the knowledge, experience and skills to become a leader.

## Get connected

Building a network that you can rely on takes more than hard work. CBE attracts exceptional and talented people from Australia, the wider Asia-Pacific region and the world. As a CBE student, you will have opportunities to build your professional networks, giving you the competitive edge when it comes to advancing your career. Many of our courses are developed in consultation with industry partners, to ensure that the skills and knowledge you acquire through your study can be applied to real-world situations.

“The academic knowledge that you gain in a classroom is palpable. In my case, I was constantly using my classroom knowledge at work and then using my work experience to shape my academic knowledge. Both fed off shape my academic knowledge. Both fed off each other and I gained immensely from the experience.”
